AI Tip

DESA GLOBAL LEADERSHIP

Networking AI Tools

LinkedIn and Eventbrite Events

Ideal for: Expanding your professional networking through smarter event discovery.

Why: LinkedIn and Eventbrite's AIs help find events aligned with your past interests and goals - from executive roundtables to leadership forums. They makes finding the right rooms to learn and connect effortless.

Reclaim.AI

Ideal for: Scheduling networking time blocks to nurture your leadership network.

Why: Reclaim.AI automatically blocks time in your calendar for networking, outreach, and reflection. It ensures your relationship-building goals don't get buried by daily meetings - helping you follow through on the connections that matter most.

GrammarlyGO

Ideal for: Elevating your LinkedIn voice, thought leadership and engagement.

Why: GrammarlyGO refines your posts, comments, and messages so they sound authentic, confident, and on-brand. It helps you write with clarity and empathy - turning every online interaction into a meaningful connection.

AI Tip

DESA GLOBAL LEADERSHIP

Custom GPT: Networking AI

Purpose: Personalized Outreach with AI

What it does:
Networking AI is your personal career networking assistant. Its main goal is to help to tailor every message with precision and empathy to maximize connection. Whether you're networking with someone in your field, or reconnecting with a professional contact.

Smart Prompts to Power Up Your Networking

- I just connected with [Name] on LinkedIn. Can you help me write a thoughtful first message that references their background or content, and invites a casual conversation or potential knowledge-sharing?
- Can you help me write a polite follow-up message to [Name], who hasn't responded to my first email message about [topic or ask], and I want to reconnect without being pushy?
- Can you help me write a professional and friendly Teams (or email) message to a colleague in another department at my company, asking to learn more about their role and how our teams might better collaborate?

Pro Tips: For *any* of the above, you'll get the most personalized result by including:

- Your LinkedIn profile or Personal branding value proposition
- The recipient's LinkedIn profile or internal title
- Your specific goal for the message
